Under the Super Rally Format, any crew that has retired from Day 1 and/or Day 2 may restart the next leg. The restart order will be at the sole discretion of the Event Stewards.

The crew will be penalized with a 5-minute penalty added to the fastest time in the competitor's class for each missed stage that shall include special stage or Super Special Stage on which the crew retired. Should there be no finishers in the competitor's class, the next lower class's fastest time will be used. Should there be no lower class, the fastest time from the next higher class will be used.

Should retirement occur after the last special stage or Super Special Stage, the crew will nonetheless be deemed to miss that last special stage or Super Special Stage.

Any crew that retired from the last Day will be classified after the application of a 5-minute time penalty added to the fastest time in the competitor's class for each missed stage which shall include the special stage or Super Special Stage on which the crew retired. However, in order to be classified, their car must be present in the finish Parc Ferme until the publication of the provisional final results.

Cars may be removed from Parc Ferme into the Service Park for repairs. However, crews must present their cars in the Parc Ferme at least one hour before the time of the start of the next Day. The Clerk of the Course may require that the vehicle be scrutineered before starting the next Day.

All other applicable penalties that have been accrued will be assessed per event regulations.
